# **Thermoset Hardener No. 66**

### Description

LORD Thermoset Hardener No. 66 is a general purpose curing agent designed for use with several Thermoset epoxy resins to obtain a variety of handling and cured properties. Thermoset Hardener No. 66 is suitable for a variety of applications including structural adhesives, casting, coatings and laminates.

#### **Features and Benefits**

*Convenient* – provides a shelf life of over one year; cures at room temperature or with mild elevated temperature.

**FDA Compliant** – ingredients contained in Thermoset Hardener No. 66 are permitted for food contact under FDA food additive regulations (21CFR175.300) when material is properly proportioned, mixed, applied and cured.

*Flexible Bond Strength* – provides high bond strength for use as an adhesive to a variety of surfaces. Rigidity of bond may be varied depending on mix ratio. A 1:2 (resin to hardener, by weight) ratio will yield a relatively flexible bond; a 2:1 ratio will provide a rigid bond.

*Low Stress* – exhibits low shrinkage and stress on components as it cures.

# Application

*Mixing* – Refer to applicable Thermoset epoxy resin data sheet for specific mixing instructions and mix ratios.

**Applying** – Refer to applicable Thermoset epoxy resin data sheet for specific application instructions.

*Curing* – Refer to applicable Thermoset epoxy resin data sheet for specific curing instructions. Cure rate is dependent on the mass and shape of the catalyzed resin, along with the ambient temperature and the presence of fillers.

#### Shelf Life/Storage

Shelf life is two years from date of manufacture when stored in a well ventilated area at 25°C in original, unopened container.

## **Cautionary Information**

Before using this or any LORD product, refer to the Material Safety Data Sheet (MSDS) and label for safe use and handling instructions.

*For industrial/commercial use only.* Must be applied by trained personnel only. Not to be used in household applications. Not for consumer use.
