

# XMARK DOOR PROTECTOR - BLUE

Xmark Door Protector Blue—a robust and High Density 4mm thick plastic sheet designed to provide optimal protection for doors against potential impacts, scratches and damages often encountered on jobsites.

This item is designed for reusability and can be conveniently folded for minimal spacing storage. When the time comes to shield your door, the process is simple and straightforward: just gently unfold the door protector on both sides of the door and strap it firmly in place with the velcro straps.
